## ROADS FORCED TO REMOVE MEN

Strikebreakers Are Shipped From McComb City, Miss.

LEADERS PREVENT TROUBLE

Protest Is Entered by Railroad Company, but Citizens Threaten to Mob Train—Town Is Patrolled by Three Companies of Militia and Everything Is Assuming Peaceful Condition Again.

Chicago, Oct. 5.—Reports that the railroads were considering prosecution of the strike leaders under the Sherman anti-trust law were confirmed at the offices of the railroads here. Officials of the Illinois Central railroad stated that counsel for their line had taken up the decision of the United States supreme court in the Danbury matters case to discover if the finding therein might be applied to the present labor problem.

McComb City, Miss., Oct. 5.—With the enforced departure of the last of the strikebreakers brought here by the Illinois Central railroad came the first real assurance of the restoration of peace after twenty-four hours of excitement and spasmodic rioting.

The people of the city demanded that the strikebreakers be removed from the community, and the men were placed aboard a heavily guarded special train and hurried to New Orleans. Sixty soldiers armed with ball cartridges and with orders to "shoot to kill" if necessary, accompanied the special train south as far as Magnolia.

This action by the military authorities probably prevented another battle that might have proved more serious than the previous clash.

Railroad Company Protests.

After the strikebreakers had agreed to get out of town at 1 o'clock the departure of the train was delayed for nearly three hours by protests of the railroad company, and the people of McComb City began to exhibit signs of surliness and mob spirit.

About half an hour before the train left a number of these persons, well armed, left the city southward and took a position on the railroad track on which the special would have to pass en route to New Orleans. Strike leaders in automobiles finally persuaded the men to disband and commit no overt act.

Three companies of Mississippi national guard patrolled the streets at dark, and the belief is expressed that the town will remain quiet.

"If any strikebreaker makes a move to hurl anything from the windows, kill him on the spot; if the train is fired upon at any time we will return the fire and you will shoot to kill."

These final orders were given just before the departure of the special train by Major Hoskins who was placed in charge of the soldiers aboard.

Burnside Shops "Open" Ones.

Chicago, Oct. 5.—The Burnside shops of the Illinois Central road have become "open shops," a formal notice posted within the stockade informing the workmen that hereafter the road will deal only with its individual employees. The strikers declared the change would have no effect on the strike, and that the order would be removed when the strike was ended.

About 140 strikebreakers arrived here from the South and were taken into the Burnside plant, going to the works in groups of ten or a dozen. They were not molested.

## GUARD IS SHOT BY SHERIFF

Trouble Is Incident to Strike at Water Valley, Miss.

Water Valley, Miss., Oct. 5.—In an exchange of shots with Sheriff F. H. Smith and two deputies a member of the special guards stationed at the Water Valley shops of the Illinois Central railroad was wounded. The wounded man was quickly carried within the shops. The name of the guard or the extent of his injuries have not been ascertained.

Quickly as the news of the encounter was circulated crowds began to form in the downtown streets and about the railroad yards. Whether further disorder will follow the shooting is problematical.

A number of strikebreakers are quartered in the Water Valley shops. About 550 of the 600 men employed in the shops are on strike.

## GUARD FATALLY WOUNDED

Southern Pacific Employee Fired on by Unknown.

Houston, Tex., Oct. 5.—Four guards employed in the Southern Pacific shops in this city were fired on by unknown persons from outside the railroad fence.

One guard, named Tullis, was struck by a bullet and is believed to be fatally wounded. The bullet passed through the arm and entered the abdomen. The other guards were not injured.

The men who fired the shots escaped.

## ITALIANS TWICE BOMBARD FORTS

Return Fire of Turkish Troops Is Ineffective.

## GOVERNOR'S PALACE RUINED

First Shot Was Fired at 3 p. m. Tuesday and Shelling Was Continued Until Dark—Bombardment Reopened the Following Morning and Turkish Shore Batteries Are Crippled.

London, Oct. 5.—It is reported from Rome that negotiations for the surrender of Tripoli will be entered into.

It is also uncertain whether any Italians landed, but the first contingent of the expeditionary force has left Italy, and, according to Malta reports, the occupation of Tripoli will begin soon by the landing of contingents from the warships.

The postoffice and the Italian consulate at Malta is accepting mails for Tripoli, and the consul has promised newspaper correspondents that they will be allowed to land in Tripoli on Friday.

Djerba, Tunis, Oct. 5.—Tripoli has been bombarded twice by the Italian fleet. The first shot was fired shortly after 3 p. m. and continued until dusk. Shots also came from the forts in town.

Vice Admiral Faravelli at 4 p. m. ordered his ships to cease firing to permit the town to surrender, but no sign was given, and after a few minutes the ships began again. This time great havoc was wrought. Fortifications were razed, the forts suffered severely and the lighthouse to the northwest was destroyed by shells from the Garibaldi. There was no means of knowing what the loss of life was in Tripoli, but ample opportunity was given the defenders to escape.

When the Tavana left the scene no landing had been attempted by the Italians, and it was feared that during the night the town would be pillaged by nomad Arabs, who had been hovering in the vicinity for some days.

Early in the morning the first division of the Italian fleet, under Admiral Faravelli, resumed the bombardment. The Turkish garrison occupied a position behind the forts and responded with a few shells, which fell short. The Italian commander endeavored to avoid damaging private dwellings, but some of them were destroyed, and the governor's palace and three forts at the entrance of the port are in ruins. The consulates and churches have not been damaged.

The second division of the fleet, under Vice Admiral Thaon di Revel, has approached close to Benghazi and Derna. A bombardment of these ports, it is understood, has been ordered. It is denied that any bluejackets will be landed in the immediate future. Such a landing possibly may be decided upon after the arrival of the expeditionary corps.

Before commencing the bombardment of Tripoli the Italian squadron removed all mines and made a careful revision of the hydrographic chart to insure safety to the coming transports. This operation lasted several days, and probably explains the real reason for the delay in the bombardment.

Four Italian officers have come to Djerba and are proceeding overland toward Tripoli on a reconnoitering expedition, as the Arabs are expected to offer stubborn resistance to the occupation of the vilayet.

## OFFICER WAS IN PREVESE

Italian Climbs Mountain and Locates Turkish Fleet.

Taranto, Italy, Oct. 5.—An officer from the Italian torpedo boat destroyer Alpino gave an explanation of the report so insistently circulated that the Italians had landed at Prevesa Sept. 28, the day before war was declared.

Captain Biscaretti, sent by Vice Admiral the Duke of Abruzzi to investigate the surroundings of Prevesa and see if the enemy's ships were there, dispatched the Artigliere and the Corazzieri, torpedo boat destroyers, to inspect the coast north of Prevesa.

Lieutenant Pannuzzi landed and succeeded in climbing the mountain near the town from the top of which he was able to see inside the harbor of Prevesa and to distinguish the Turkish torpedo boat flotilla there.

Hurrying back the lieutenant boarded his own ship and notified Captain Biscaretti of his discovery. Captain Biscaretti informed the Duke of Abruzzi of the situation, and was instructed to wait until the Turkish vessels left the harbor and then to attack them.

Italians Take Island Is Rumor.

London, Oct. 5.—A news agency dispatch from Vienna says it is reported from Constantinople that an Italian squadron has bombarded and occupied Mytilen, capital of the Island of Lesbos, in the Grecian archipelago, belonging to Turkey.

## DUKE OF CONNAUGHT.

New Governor General of Canada About to Leave England.

## DEPART FOR CANADA FRIDAY

Duke and Duchess of Connaught to Leave for New Home.

Ottawa, Ont., Oct. 5.—The Duke and Duchess of Connaught sail on the Empress of Ireland for Canada on Friday. Part of the chief deck has been partitioned off for the exclusive use of the royal party and in order to mark the importance of the occasion, King George has ordered that the royal standard shall fly from the Empress of Ireland at the moment the duke steps on the vessel. His daughter, Princess Patricia, is leaving London to visit her sister, the crown princess of Sweden, and is arranging to reach Ottawa about Christmas.

## GRANDSTAND FALLS; TWENTY INJURED

Accident Occurs During Races at Springfield, Ill.

Springfield, Ill., Oct. 5.—The falling of the bleachers at the race track at the state fair grounds precipitated 750 spectators to the ground, resulting in the injury of a score of persons, one of whom, A. G. Haines of Rochester, Ill., may die.

The last heat of an exciting race was being run, and most of the occupants of the bleachers were standing on the seats when the stand collapsed. The injured were hurried to the emergency hospital on the grounds.

## GOVERNORS DISCUSS BRIEF

Preparing Report on Rate Case for Supreme Court.

St. Louis, Oct. 5.—Governor Hadley of Missouri and Governor Harmon of Ohio, who were joined by Governor Aldrich of Nebraska, resumed the preparation of the brief which will be filed in the United States supreme court in the Minnesota rate case and which will outline the control which they contend the states have commerce within their borders.

The form of the brief had been decided on before the governors went into session, and it was said that the work now to be done was the wording of the ideas the governors desire the supreme court to consider.

The preparation of the brief is the result of the recent conference of governors of the different states at Springfield, N. J., at which speeches were made on the rights of states to control intrastate rates, which Judge Sanborn's decision denies.

## FOUR KILLED IN RAIL WRECK

Brakeman and Three Construction Men Lose Lives in Collision.

Tudor, Minn., Oct. 5.—Peter J. Dunn, a brakeman of Superior, Wis., and three construction gang men were killed and thirty-six others injured here when a Great Northern ore train, collided with a handcar.

Nine "outrig" cars, in which the construction gang slept, were being shifted to the siding by the ore train when the handcar, with a half dozen men upon it and running north at twelve miles an hour, shot into the cars.

The engine was knocked into a ditch and the nine cars burned. The crew of the handcar escaped serious injury.

## FINDS \$2,000 IN A CELLAR

New Occupant of House Shares Recluse's Coin With Owner.

Rockford, Ill., Oct. 5.—While hunting for rats in the cellar of a house into which he had just moved Albert Raymond of Sycamore unearthed a pickle jar containing \$1,600 in currency and \$400 in silver.

The house was formerly the home of Richard Brown, a recluse, who died years ago. Raymond shared his find with Harry Brown, who owns the house.

## DEMOCRATS DO NOT STAMPEDE

Two-thirds Rule in Conventions Prevents Haste.

NOT LIKELY TO BE CHANGED.

This System May Upset Political Calculations When Delegates Assemble. Party Leaders Often Nominate Men They Know Are Surely Doomed to Defeat at the Polls.

By ARTHUR W. DUNN.

Washington, Oct. 5.—[Special.]—Many people in discussing political conditions overlook the fact that it takes two-thirds of the Democratic convention to make a nomination. Oftentimes it has been the declared intention of the party leaders to abrogate the rule, but they have never attempted to do so.

Perhaps the two-thirds rule would vanish if the unit rule should be abolished, but that is also a Democratic tradition that remains in states which wish to enforce it. When a majority of any state delegation decides to vote as a unit the convention sustains it; consequently there are few divided delegations in a Democratic convention.

By means of the unit rule state delegations can be swung from one candidate to another, but the two-thirds rule prevents a stampede and the selection of any man upon whom a number of leaders may agree. That two-thirds rule may upset many political calculations when the convention meets.

A Possible Mistake.

It is the theory of Senator Bourne, Senator Clapp and, in fact, all the ardent progressives who are opposing the nomination of President Taft that a national convention will not nominate a man who seems foredoomed to defeat. That is a mistake they are making about national conventions.

The Republican national convention faced just such a dilemma twenty years ago and named a man who was bitterly opposed in many strong Republican states which were necessary to Republican success. Few Democrats of national fame expected Bryan to win either in 1900 or in 1908. Majorities often refuse to have minorities dictate to them in conventions and prefer to go against a defeat at the polls rather than sacrifice all chances of success in the convention.

Sending Out Taft's Message.

There has been no vacation for the clerks at the White House. The whole force, which usually has a comparatively easy time during the summer when the president is at Beverly or on his travels, has put in the time since the president has been away addressing envelopes containing various messages of the president. Veto messages of the last session comprise this literature, the message vetoing the statehood bill for the Arizona recall largely predominating. No doubt the president's views on this subject are wanted on account of the agitation there has been on this particular progressive policy. It has often been asserted by the progressives that Mr. Taft's veto has caused Taft more trouble than any other act of his administration.

Keep in Touch With Home Folks.

The nomination of William J. Browning to succeed the late Henry Loudenslager in the First New Jersey district led a congressional observer to remark that all a man had to do to be elected to congress these days was to become a clerk of a member or an employee of the house, get the member to die and take his place. Browning was a close friend of Loudenslager and his lieutenant for a score of years. There is one other requisite. The man who comes to Washington and wants political advancement must keep in close touch with the home folks. The first time he forgets them his political chances for the future go glimmering.

Chinese In the Philippines.

Although the United States government has stopped the immigration of Chinese into the Philippines, they seem to have a good foothold in those far-away American possessions. They are doing 75 per cent of the business of the islands, pay 75 per cent of the internal revenue taxes, and 8,000 Chinese merchants have an aggregate of \$25,000,000 invested in the islands. It will take a mighty long time for the Americans to overcome that lead in business in the Philippines, especially when few Americans will go there with a view of making the islands their permanent home.

Making Up the Wiley Case.

The members of the committee on expenditures in the agricultural department are preparing the report upon the case of Dr. Wiley and expect to have it ready before the regular session meets. The decision of President Taft makes one part of their work easy, as the committee can unite in exonerating the doctor from the charges made against him, but there may be a division of opinion as to the administration of the pure food law. There were evidences of party lines when the investigation was in progress, the Democrats taking the side of Wiley and the Republicans being for Secretary Wilson and the administration. There may be majority and minority reports on this subject.

A Rich Mine.

A mine was discovered in the district of La Paz, Bolivia, in 1900, from which the silver was cut with chisels.

## ETHEL BARRYMORE.

Actress Is Seriously Ill and Has Canceled Engagements.

## ETHEL BARRYMORE IS ILL

Actress, Threatened With Peritonitis, Cancels Engagements.

South Bend, Ind., Oct. 5.—Ethel Barrymore, the actress, was taken suddenly ill and is in a critical condition at the Oliver hotel, being threatened with peritonitis.

So serious is her condition that all engagements have been canceled for ten days.

As soon as she can be moved she will be taken to a Chicago hospital.

Russell G. Colt, her husband, has been summoned from New York.

## NECESSARY MEANS TO GET VOTERS TO POLLS

Stephenson Witness Says Money Had to Be Used.

Milwaukee, Oct. 5.—Payments of money to workers in United States Senator Stephenson's campaign for the primary nomination in 1903 were made without any definite returns to the campaign managers as to what use the funds were put, according to testimony before the senatorial committee investigating charges of bribery in connection with Senator Stephenson's election.

It was brought out that out of the senator's campaign fund of \$107,733 in the primaries for the nomination, money was scattered broadcast over the state to "organizers," who turned in no itemized expense accounts. Senator Stephenson gave no attention to detailed expenses, it was testified.

"Am I to understand that in Wisconsin, the home of the direct primary, half of the people have to be solicited to go to the polls?" asked Senator W. B. Heyburn of Idaho, the chairman.

"I don't know as to that," replied Edmonds, "but the fight was close, there being several Republican candidates for the nomination, and we felt it necessary to employ every means to get out the Stephenson supporters."

## FREIGHT STEAMER AGROUND

Vessel Southbound From Alaska With \$250,000 Cargo.

Seattle, Oct. 5.—The Alaska Steamship company's freight steamer Edith is ashore on Level island, not far from Wrangell, Alaska. The ship is resting on soft sand and her owners believe they will be able to save her. Captain James Daniels, master of the Edith, wires that the freighter struck at night during a heavy fog.

The Edith was southbound from Skagway and has a cargo of 60,000 cases of salmon, valued at \$250,000.

The Alaskan liner Alameda has been sent to the aid of the Edith and scows have been sent from Wrangell to take off part of the cargo.

The Edith is a steel steamship of 2,369 tons gross register and carries a crew of thirty-one officers and men.

The Reason.

"Can you tell me, my boy," said the intelligent instructor, "why the race is not always to the swift?"

"Yes'm," said the small boy promptly. "It's because sometimes their tires bust."

—Exchange.

Kalspell Sawmill Burns.

Kalspell, Mont., Oct. 5.—The mill of the Northwestern Lumber company, a Minneapolis and Montana syndicate, was destroyed by fire of unknown origin, causing a loss of \$100,000, only partly insured. The water system was incapacitated by the early destruction of the engine room, but a volunteer bucket brigade saved the offices and yards containing 17,000, 000 feet of lumber.

May Be New Mexican Revolt.

Mexico City, Oct. 5.—El Pais publishes a sensational telegram from San Antonio, Tex., to the effect that the followers of General Reyes and the deposed president, General Diaz, have established a junta in that city and await the arrival of Reyes. The telegram permits the inference that a new insurrection is to be begun.

## TAFT PROMISES SPEEDY ACTION

### BATTLES FOR LAND WITH GUN

North Dakotan Entrenches Himself in Strawstack to Fight.

Gardena, N. D., Oct. 5.—Entrenched in a strawstack and armed with a rifle and shotgun, William Dagnar, a farmer near this city, has beaten off the sheriff and his deputies and put to flight a threshing crew sent by the man who claims the farm which Dagnar holds to thresh a crop of flax.

Dagnar, who always has been considered a peaceable citizen, became defiant when the dispute over the land arose. Dagnar, Sr., now deceased, acquired title to a quarter section years ago, but later abandoned the claim and made no mention of it in his will.

William Wilson "squatted" on the property, but Dagnar, Jr., after his father's death, decided to take back the land. He took armed possession of it, and when Wilson sent a threshing crew to the farm Dagnar, it is alleged, opened fire from the strawstack, putting the threshers to flight.

A warrant was sworn out for Dagnar's arrest, and the sheriff and deputies went to the farm. They, too, were put to flight, and Dagnar was left in possession. Dagnar refuses to give up the land, and the sheriff says a posse will be necessary before Dagnar can be arrested.

### BLACK HILLS TO GREET TAFT

Committee Preparing Welcome for President.

Deadwood, S. D., Oct. 5.—Arrangements are being made for the reception of President Taft in the Black Hills towns, which he will visit Oct. 21. His principal stop will be made in the morning on the way north on the Burlington at Custer and Hill City, and the presidential party will reach Deadwood in time for an address which will be made on a platform erected on the court house lawn. Lunch with Congressman Martin and invited guests will be at the Franklin hotel immediately after the address.

The president will then go to Lead by automobile, where he will deliver an address at the Auditorium, returning to Deadwood and leaving at once on the Northwestern for Sturgis, where he will make a short stop and will hold an informal reception. He then will go on to Rapid City, where he will give a short talk, and leave over the Pierre line for the state capital.

Tells Laramie, Wyo., Audience Red Tape Will Be Cut Out.

## ENTERTAINED AT CHEYENNE

President Witnesses Miniature Frontier Day Show and Addresses Crowd at Cheyenne in Defense of His Tariff Vetoes—Declaration That He Proposes to Reduce Tariff on Wool Not Well Received—Receives Promise of Wyoming Vote.

Rawlins, Wyo., Oct. 5.—President Taft spent the day in Wyoming and left Rawlins, after a ten-minute stop, for Salt Lake City, Utah. The president stopped at Cheyenne and Laramie.

At Cheyenne Charles Irving of the reception committee had arranged a miniature reproduction of the "stunts" made famous at the annual frontier day celebration. Mr. Taft watched the bucking bronchos, the races between cowboys and the roping of wild horses with great interest. He spoke on his tariff vetoes to a large audience at the opera house.

The president declared among other things that the present wool tariff is too high and announced his intention to revise downward. Cheyenne is in the center of the sheep country and the president got little applause for that announcement.

At Laramie the president was taken for a short automobile ride, after which he made a brief speech, and at Rawlins he made another short talk from the rear platform of his car.

Governor Carey, who accompanied the president across the state, told Mr. Taft that he would be backed by the Wyoming delegation at the next Republican convention and that he would receive the electoral vote of the state in November, 1912.

Will Prod Interior Department.

In his speech at Laramie, President Taft called out enthusiastic applause by declaring that he was going to see to it that the interior department at Washington gives quicker action hereafter on all matters affecting the public domain.

"We have had an unfortunate condition in the department," said the president. "The controversies between the extremists on both sides of the conservation question brought about a bitter attack on the interior department and really interfered with the administration of the laws."

"You cannot keep a lot of men under fire, under criticism, under the muckraking system, which unfortunately prevails, without paralyzing efforts toward the administration of law. They become timid. It is a great deal easier to do nothing and to assume no responsibility than it is to go ahead and do things and then take the shafts of criticism and the charges of bad motives. It takes courage to do that, and human nature is frail sometimes and hesitates. I am glad to say that people the country over are now taking a much more sensible and philosophical view of the future."

Red Tape to Be Cut Out.

Mr. Taft said that one result of his trip through the West and the recent tours of Secretary Fisher and Secretary Wilson would be to stimulate the department at Washington to rid themselves of that red tape and delay which is the resort of those who are timid in the administration of the law.

Senator Warren promised the president to support the peace treaties in the senate. He declares that the president's speech on the subject unquestionably had met the approval of the people.

About half an hour before the train left a number of these persons, well armed, left the city southward and took a position on the railroad track on which the special would have to pass en route to New Orleans. Strike leaders in automobiles finally persuaded the men to disband and commit no overt act.

Three companies of Mississippi national guard patrolled the streets at dark, and the belief is expressed that the town will remain quiet.

"If any strikebreaker makes a move to hurt anything from the windows, kill him on the spot; if the train is fired upon at any time we will return the fire and you will shoot to kill."

These final orders were given just before the departure of the special train by Major Hoskins who was placed in charge of the soldiers aboard.

## Burnside Shops "Open" Ones.

Chicago, Oct. 5.—The Burnside shops of the Illinois Central road have become "open shops," a formal notice posted within the stockade informing the workmen that hereafter the road will deal only with its individual employees. The strikers declared the change would have no effect on the strike, and that the order would be removed when the strike was ended.

About 140 strikebreakers arrived here from the South and were taken into the Burnside plant, going to the works in groups of ten or a dozen. They were not molested.

## GUARD IS SHOT BY SHERIFF

Trouble Is Incident to Strike at Water Valley, Miss.

Water Valley, Miss., Oct. 5.—In an exchange of shots with Sheriff F. H. The name of the guard or the extent of his injuries have not been ascertained.

Quickly as the news of the encounter was circulated crowds began to form in the downtown streets and about the railroad yards. Whether further disorder will follow the shooting is problematical.

A number of strikebreakers are quartered in the Water Valley shops. About 550 of the 600 men employed in the shops are on strike.

The postoffice and the Italian consulate at Malta is accepting mails for Tripoli, and the consul has promised newspaper correspondents that they will be allowed to land in Tripoli on Friday.

Djerba, Tunis, Oct. 5.—Tripoli has been bombarded twice by the Italian fleet. The first shot was fired shortly after 3 p. m. and continued until dusk. Shots also came from the forts in town.

Vice Admiral Faravelli at 4 p. m. ordered his ships to cease firing to permit the town to surrender, but no sign was given, and after a few minutes the ships began again. This time great havoc was wrought. Fortifications were razed, the forts suffered severely and the lighthouse to the northwest was destroyed by shells from the Garibaldi. There was no means of knowing what the loss of life was in Tripoli, but ample opportunity was given the defenders to escape.

When the Tavana left the scene no landing had been attempted by the Italians, and it was feared that during the night the town would be pillaged by nomad Arabs, who had been hovering in the vicinity for some days.

Early in the morning the first division of the Italian fleet, under Admiral Faravelli, resumed the bombardment. The Turkish garrison occupied a position behind the forts and responded with a few shells, which fell short. The Italian commander endeavored to avoid damaging private dwellings, but some of them were destroyed, and the governor's palace and three forts at the entrance of the fort are in ruins. The consulates and churches have not been damaged.

The second division of the fleet, under Vice Admiral Thaon di Revel, has approached close to Benghazi and Derina. A bombardment of these ports, it is understood, has been ordered. It is denied that any bluejackets will be landed in the immediate future. Such a landing possibly may be decided upon after the arrival of the expeditionary corps.

Before commencing the bombardment of Tripoli the Italian squadron removed all mines and made a careful revision of the hydrographic chart to insure safety to the coming transports. This operation lasted several days, and probably explains the real reason for the delay in the bombardment.

Four Italian officers have come to Djerba and are proceeding overland toward Tripoli on a reconnoitering expedition, as the Arabs are expected to offer stubborn resistance to the occupation of the vilayet.

## OFFICER WAS IN PREVESEA

Italian Climbs Mountain and Locates Turkish Fleet.

Taranto, Italy, Oct. 5.—An officer from the Italian torpedo boat destroyer Alpino gave an explanation of the report so insistently circulated that the Italians had landed at Prevesa Sept. 28, the day before war was declared.

Captain Biscaretti, sent by Vice Admiral the Duke of Abruzzi to investigate the surroundings of Prevesa and see if the enemy's ships were there, dispatched the Artigliere and the Corazzieri, torpedo boat destroyers, to inspect the coast north of Prevesa.

Lieutenant Pannuzzi landed and succeeded in climbing the mountain near the town from the top of which he was able to see inside the harbor of Prevesa and to distinguish the Turkish torpedo boat flotilla there.

Hurrying back the lieutenant boarded his own ship and notified Captain Biscaretti of his discovery. Captain Biscaretti informed the Duke of Abruzzi of the situation, and was instructed to wait until the Turkish vessels left the harbor and then to attack them.

## Italians Take Island Is Rumor.

London, Oct. 5.—A news agency dispatch from Vienna says it is reported from Constantinople that an Italian squadron has bombarded and occupied Mytilene, capital of the Island of Lesbos, in the Grecian archipelago, belonging to Turkey.

## DUKE OF CONNAUGHT.

New Governor General of Canada About to Leave England.

## DEPART FOR CANADA FRIDAY

Duke and Duchess of Connaught to Leave for New Home.

Ottawa, Ont., Oct. 5.—The Duke and Duchess of Connaught sail on the Empress of Ireland for Canada on Friday. Part of the chief deck has been partitioned off for the exclusive use of the royal party and in order to mark the importance of the occasion, King George has ordered that the royal standard shall fly from the Empress of Ireland at the moment the duke steps on the vessel. His daughter, Princess Patricia, is leaving London to visit her sister, the crown princess of Sweden, and is arranging to reach Ottawa about Christmas.

GRANDSTAND FALLS;  
TWENTY INJURED

Accident Occurs During Races at Springfield, Ill.

Springfield, Ill., Oct. 5.—The falling of the bleachers at the race track at the state fair grounds precipitated 750 spectators to the ground, resulting in the injury of a score of persons, one of whom, A. G. Haines of Rochester, Ill., may die.

The last heat of an exciting race was being run, and most of the occupants of the bleachers were standing on the seats when the stand collapsed. The injured were hurried to the emergency hospital on the grounds.

## GOVERNORS DISCUSS BRIEF

Preparing Report on Rate Case for Supreme Court.

St. Louis, Oct. 5.—Governor Hadley of Missouri and Governor Harmon of Ohio, who were joined by Governor Aldrich of Nebraska, resumed the preparation of the brief which will be filed in the United States supreme court in the Minnesota rate case and which will outline the control which they contend the states have commerce within their borders.

The form of the brief had been decided on before the governors went into session, and it was said that the work now to be done was the wording of the ideas the governors desire the supreme court to consider.

The preparation of the brief is the result of the recent conference of governors of the different states at Springfield, N. J., at which speeches were made on the rights of states to control intrastate rates, which Judge Sanborn's decision denies.

## FOUR KILLED IN RAIL WRECK

Brakeman and Three Construction Men Lose Lives in Collision.

Tudor, Minn., Oct. 5.—Peter J. Dunn, a brakeman of Superior, Wis., and three construction gang men were killed and thirty-six others injured here when a Great Northern ore train, collided with a handcar.

Nine "oufit" cars, in which the construction gang slept, were being shifted to the siding by the ore train when the handcar, with a half dozen men upon it and running north at twelve miles an hour, shot into the cars.

The engine was knocked into a ditch and the nine cars burned. The crew of the handcar escaped serious injury.

## FINDS \$2,000 IN A CELLAR

New Occupant of House Shares Recluse's Coin With Owner.

Rockford, Ill., Oct. 5.—While hunting for rats in the cellar of a house into which he had just moved Albert Raymond of Sycamore unearthed a pickle jar containing \$1,600 in currency and \$400 in silver.

The house was formerly the home of Richard Brown, a recluse, who died years ago. Raymond shared his find with Harry Brown, who owns the house.

DEMOCRATS DO  
NOT STAMPEDETwo-thirds Rule in Conventions  
Prevents Haste.

## NOT LIKELY TO BE CHANGED.

This System May Upset Political Calculations When Delegates Assemble. Party Leaders Often Nominate Men They Know Are Surely Doomed to Defeat at the Polls.

By ARTHUR W. DUNN.  
Washington, Oct. 5.—[Special.]—Many people in discussing political conditions overlook the fact that it takes two-thirds of the Democratic convention to make a nomination. Oftentimes it has been the declared intention of the party leaders to abrogate the rule, but they have never attempted to do so.

Perhaps the two-thirds rule would vanish if the unit rule should be abolished, but that is also a Democratic tradition that remains in states which wish to enforce it. When a majority of any state delegation decides to vote as a unit the convention sustains it; consequently there are few divided delegations in a Democratic convention.

By means of the unit rule state delegations can be swung from one candidate to another, but the two-thirds rule prevents a stampede and the selection of any man upon whom a number of leaders may agree. That two-thirds rule may upset many political calculations when the convention meets.

A Possible Mistake.  
It is the theory of Senator Bourne, Senator Clapp and, in fact, all the ardent progressives who are opposing the nomination of President Taft that a national convention will not nominate a man who seems foredoomed to defeat. That is a mistake they are making about national conventions.

The Republican national convention faced just such a dilemma twenty years ago and named a man who was bitterly opposed in many strong Republican states which were necessary to Republican success. Few Democrats of national fame expected Bryan to win either in 1900 or in 1908. Majorities often refuse to have minorities dictate to them in conventions and prefer to go against a defeat at the polls rather than sacrifice all chances of success in the convention.

## Sending Out Taft's Message.

There has been no vacation for the clerks at the White House. The whole force, which usually has a comparatively easy time during the summer when the president is at Beverly or on his travels, has put in the time since the president has been away addressing envelopes containing various messages of the president. Veto messages of the last session comprise this literature, the message vetoing the statehood bill with the Arizona recall largely predominating. No doubt the president's views on this subject are wanted on account of the agitation there has been on this particular progressive policy. It has often been asserted by the progressives that the Arizona veto has caused Taft more trouble than any other act of his administration.

## Keep In Touch With Home Folks.

The nomination of William J. Browning to succeed the late Henry Loudenslager in the First New Jersey district led a congressional observer to remark that all a man had to do to be elected to congress these days was to become a clerk of a member or an employee of the house, get the member to die and take his place. Browning was a close friend of Loudenslager and his lieutenant for a score of years. There is one other requisite. The man who comes to Washington and wants political advancement must keep in close touch with the home folks. The first time he forgets them his political chances for the future go glimmering.

## Chinese In the Philippines.

Although the United States government has stopped the immigration of Chinese into the Philippines, they seem to have a good foothold in those far-away American possessions. They are doing 75 per cent of the business of the islands, pay 75 per cent of the internal revenue taxes, and 8,000 Chinese merchants have an aggregate of \$25,000,000 invested in the islands. It will take a mighty long time for the Americans to overcome that lead in business in the Philippines, especially when few Americans will go there with a view of making the islands their permanent home.

## Making Up the Wiley Case.

The members of the committee on expenditures in the agricultural department are preparing the report upon the case of Dr. Wiley and expect to have it ready before the regular session meets. The decision of President Taft makes one part of their work easy, as the committee can unite in exonerating the doctor from the charges made against him, but there may be a division of opinion as to the administration of the pure food law when the investigation was in progress, the Democrats taking the side of Wiley and the Republicans being for Secretary Wilson and the administration. There may be majority and minority reports on this subject.

Actress, Threatened With Peritonitis, Cancels Engagements.

South Bend, Ind., Oct. 5.—Ethel Barrymore, the actress, was taken suddenly ill and is in a critical condition at the Oliver hotel, being threatened with peritonitis.

So serious is her condition that all engagements have been canceled for ten days.

As soon as she can be moved she will be taken to a Chicago hospital. Russell G. Colt, her husband, has been summoned from New York.

NECESSARY MEANS TO  
GET VOTERS TO POLLS

Stephenson Witness Says Money Had to Be Used.

Milwaukee, Oct. 5.—Payments of money to workers in United States Senator Stephenson's campaign for the primary nomination in 1908 were made without any definite returns to the campaign managers as to what use the funds were put, according to testimony before the senatorial committee investigating charges of bribery in connection with Senator Stephenson's election.

It was brought out that out of the senator's campaign fund of \$107,793 in the primaries for the nomination, money was scattered broadcast over the state to "organizers," who turned in no itemized expense accounts. Senator Stephenson gave no attention to detailed expenses, it was testified.

"Am I to understand that in Wisconsin, the home of the direct primary, half of the people have to be solicited to go to the polls?" asked Senator W. B. Heyburn of Idaho, the chairman. "I don't know as to that," replied Edmonds, "but the fight was close, there being several Republican candidates for the nomination, and we felt it necessary to employ every means to get out the Stephenson supporters."

## FREIGHT STEAMER AGROUND

Vessel Southbound From Alaska With \$250,000 Cargo.

Seattle, Oct. 5.—The Alaska Steamship company's freight steamer Edith is ashore on Level Island, not far from Wrangell, Alaska. The ship is resting on soft sand and her owners believe they will be able to save her.

Captain James Daniels, master of the Edith, wires that the freighter struck at night during a heavy fog. The Edith was southbound from Skagway and has a cargo of 60,000 cases of salmon, valued at \$250,000. The Alaskan liner Alameda has been sent to the aid of the Edith and scows have been sent from Wrangell to take off part of the cargo.

The Edith is a steel steamship of 2,369 tons gross register and carries a crew of thirty-one officers and men.

Kallispell, Mont., Oct. 5.—The mill of the Northwestern Lumber company, a Minneapolis and Montana syndicate, was destroyed by fire of unknown origin, causing a loss of \$100,000, only partly insured. The water system was incapacitated by the early destruction of the engine room, but a volunteer bucket brigade saved the offices and yards containing 17,000,000 feet of lumber.

## May Be New Mexican Revolt.

Mexico City, Oct. 5.—El Pais publishes a sensational telegram from San Antonio, Tex., to the effect that the followers of General Reyes and the deposed president, General Diaz, have established a junta in that city, and await the arrival of Reyes. ## BATTLES FOR LAND WITH GUN

North Dakotan Entrenches Himself in Strawstack to Fight.

Gardena, N. D., Oct. 5.—Entrenched in a strawstack and armed with a rifle and shotgun, William Dagnar, a farmer near this city, has beaten off the sheriff and his deputies and put to flight a threshing crew sent by the man who claims the farm which Dagnar holds to thresh a crop of flax.

Dagnar, who always has been considered a peaceable citizen, became defiant when the dispute over the land arose. Dagnar, Sr., now deceased, acquired title to a quarter section years ago, but later abandoned the claim and made no mention of it in his will.

William Wilson "squatted" on the property, but Dagnar, Jr., after his father's death, decided to take back the land. He took armed possession of it, and when Wilson sent a threshing crew to the farm Dagnar, it is alleged, opened fire from the strawstack, putting the threshers to flight.

A warrant was sworn out for Dagnar's arrest, and the sheriff and deputies went to the farm. They, too, were put to flight, and Dagnar was left in possession. Dagnar refuses to give up the land, and the sheriff says a posse will be necessary before Dagnar can be arrested.

## BLACK HILLS TO GREET TAFT

Committee Preparing Welcome for President.

Deadwood, S. D., Oct. 5.—Arrangements are being made for the reception of President Taft in the Black Hills towns, which he will visit Oct. 21. His principal stop will be made in Deadwood. Short stops will be made in the morning on the way north on the Burlington at Custer and Hill City, and the presidential party will reach Deadwood in time for an address which will be made on a platform erected on the court house lawn. Lunch with Congressman Martin and invited guests will be at the Franklin hotel immediately after the address.

The president will then go to Lead by automobile, where he will deliver an address at the Auditorium, returning to Deadwood and leaving at once on the Northwestern for Sturgis, where he will make a short stop and will hold an informal reception. He then will go on to Rapid City, where he will give a short talk, and leave over the Pierre line for the state capital.

Tells Laramie, Wyo., Audience Red  
Tape Will Be Cut Out.

## ENTERTAINED AT CHEYENNE

President Witnesses Miniature Frontier Day Show and Addresses Crowd at Cheyenne in Defense of His Tariff Vetoes—Declaration That He Proposes to Reduce Tariff on Wool Not Well Received—Receives Promise of Wyoming Vote.

Rawlins, Wyo., Oct. 5.—President Taft spent the day in Wyoming and left Rawlins, after a ten-minute stop, for Salt Lake City, Utah. The president stopped at Cheyenne and Laramie.

At Cheyenne Charles Irving of the reception committee had arranged a miniature reproduction of the "stunts" made famous at the annual frontier day celebration. Mr. Taft watched the bucking bronchos, the races between cowboys and the roping of wild horses with great interest. He spoke on his tariff vetoes to a large audience at the opera house.

The president declared among other things that the present wool tariff is too high and announced his intention to revise downward. Cheyenne is in the center of the sheep country and the president got little applause for that announcement.

At Laramie the president was taken for a short automobile ride, after which he made a brief speech, and at Rawlins he made another short talk from the rear platform of his car.

Governor Carey, who accompanied the president across the state, told Mr. Taft that he would be backed by the Wyoming delegation at the next Republican convention and that he would receive the electoral vote of the state in November, 1912.

Will Proceed Interior Department.

In his speech at Laramie, President Taft called out enthusiastic applause by declaring that he was going to see to it that the interior department at Washington gives quicker action hereafter on all matters affecting the public domain.

"We have had an unfortunate condition in the department," said the president. "The controversies between the extremists on both sides of the conservation question brought about a bitter attack on the interior department and really interfered with the administration of the laws."

"You cannot keep a lot of men under fire, under criticism, under the muckraking system, which unfortunately prevails, without paralyzing efforts toward the administration of law. They become timid. It is a great deal easier to do nothing and to assume no responsibility than it is to go ahead and do things and then take the shafts of criticism and the charges of bad motives. It takes courage to do that, and human nature is frail sometimes and hesitates. I am glad to say that people the country over are now taking a much more sensible and philosophical view of the future."

## Red Tape to Be Cut Out.

Mr. Taft said that one result of his trip through the West and the recent tours of Secretary Fisher and Secretary Wilson would be to stimulate the department at Washington to rid themselves of that red tape and delay which is the resort of those who are timid in the administration of the law. Senator Warren promised the president to support the peace treaties in the senate. He declares that the president's speech on the subject unquestionably had met the approval of the people.

The frontier day show at Cheyenne was as near a reproduction of the annual affair as Irwin, who runs the shows could make. There were sixty cowboys, cowgirls, boosters and less important persons connected with it. Mr. Taft watched the performance from the judges' stand with United States Senator Warren and Governor Carey.

## FIRST ARREST FOR THEFT

Act at Austin, Pa.

Austin, Pa., Oct. 5.—The first arrests for robbery, following the disastrous flood of last Saturday, were made when two foreign women were caught by a state trooper prying open the lid of a trunk. The women are Mrs. Peter Shava and her daughter-in-law, Mrs. Joseph Shava. The women appealed to State Senator P. E. Baldwin to intercede for them, but he refused. They were taken to the county jail at Soudersport, Pa., their home then was searched and a first and jewelry valued at \$1,000 or more were recovered, many pieces being identified by the owners.

Joseph Shava, husband of the younger woman, is accused of participating in the thefts, but he has not been found.

In a column of pictures entitled "Prominent Figures at the Methodist Meeting" now in session at Minneapolis the photo of Rev. Fred J. Smith, of Nashua, and Rev. Charles Fox Davis, of Brainerd grace the top of the page of the Minneapolis Journal. They are seen sauntering down Hennepin avenue. The annual conference of the Methodist church is now in session and a large number of delegates are present.

The meeting of the Woodmen of the World at the Citizens State bank building this evening is a public meeting. Mrs. M. E. LaRocca, of St. Paul, is a gifted speaker of magnetic personality and will talk about the Woodmen of the World auxiliary. John W. Geiger, of Omaha, is the state manager of four states and the head counsel of Iowa. He is also a good orator. All are cordially invited to hear them.

F. E. Ross, Supt. of schools of Cass county, was in the city today on his way to Pillager. He was accompanied by Daniel DeLury, A. J. Linden and Oscar Ellingson. Mr. Ellingson comes from the community at federal dam which has instituted mandamus proceedings against school district No. 1, of Cass county, to compel them to commence construction of the contemplated school at the dam. The hearing in the mandamus proceedings has been continued.

Banquet at Ransford is a Brilliant  
Affair and Over 100 Diners At-

### EO. W. COOLEY GAVE ADDRESS

George H. Crosby Mentioned the Cuy-  
una Range as the Greatest  
Treasury on Earth

The good roads banquet given by the Brainerd Commercial club at the Ransford hotel last evening was a brilliant affair and an unqualified success. Attended by fully 100 diners the occasion brought together many prominent men of this city and county, invited guests including the city council, county commissioners and township officials and speakers, who had the pleasure of hearing the man or nestor of the good roads movement in Minnesota, the veteran engineer, road maker and secretary of the state highway commission, George W. Cooley, of St. Paul, make one of his limelight and enthusiastic addresses in the subject of that commission and the matter of good roads.

His hair may be silvered white but his action and his words bespeak the energy and enthusiasm of youth. In his introductory address, Toastmaster R. R. Wise said: "Our state highway commission is represented by that venerable veteran who has spent over 40 years in building up the highways of our great land, the Hon. George W. Cooley. He will give you much food for thought and by an exposition of the tenets taught by him there is no question but what we will receive untold recompense."

Mr. Cooley gave an exhaustive and most comprehensive address, covering the good roads movement from the era of 300 years before Christ down to the present time and not one word or syllable was uttered but would prove of benefit if adopted by any county of the state. From the day when Rome flung her roads to the farthest reaches of the empire and bound its dominions by these bands to the time when the movement is gaining headway in our own state and linking all sections of this commonwealth he traced the development of the subject and its gradual advancement. His address was listened to with the strictest attention and it will serve to further stimulate the cause of good roads in this county. A rising vote of thanks at the conclusion of the banquet expressed the pleasure of the club in Mr. Cooley's address.

On the program of speakers was an array of fine orators and the first address was made by Hon. H. P. Dunn, the mayor of Brainerd. He had as his subject, "Brainerd, its Future" and as executive of the city he sketched a glowing future.

Judge C. A. Allbright spoke on "Good Roads." The judge has been with this movement from its infancy and has fostered it with all fatherly care. His remarks were listened to with attention and were heartily applauded.

Senator C. D. Johnson spoke in his characteristic manner on the good roads movement. In introducing him Chairman Wise said: "We have been taught to believe that all good Indians are dead but I must take exception inasmuch as we have with us tonight a good Indian, although many members of his tribe have gone to the happy hunting ground. He represents the tribe of 'Ho-Ho-Ta-Was-Ta,' interpreted by Dr. J. L. Camp as 'do not overlook a banquet or free lunch and never drink alone.' I have the pleasure of introducing Col. Johnson."

In introducing the next speaker Mr. Wise said: "Most all states are represented here tonight and while we have not been able to hear from all we have with us one of our home productions who emigrated to Idaho in his youth and there began a hustling career, returning later to become

a citizen of Crow Wing county. He has been one of the foremost in the development of the Cuyuna iron range and judging by his accumulations he has never ceased to hustle. I take pleasure in introducing George H. Crosby, of Crosby, who will speak on "Good Roads and the Automobile."

"The American Automobile Association," said Mr. Crosby, has been imbued with one central idea permeating its vast organization, that of building good roads. The owner of an auto is essentially a business man. He believes in system. Whether he has made a success as a farmer or in the city in its varied fields of endeavor he believes in system and he wins out every time against the fellow with no system. And good roads my friends, are not made without system.

"Men are not building on their own limited experience but are getting the best methods of every country. I am only temporarily a citizen of Crow Wing county but I feel keenly its importance. I want to help in the construction of its roads and I am willing to do my part because I am largely interested. But the interest I have is the interest which every man should have in good roads whether he owns a lot in Brainerd or an iron mine on the Cuyuna range. Each should pay in proportion."

"The question of good roads should be talked up and interest should be kept alive in the movement. You have a fertile county possessed of great possibilities. I was at your county fair at Pequot and was perfectly astonished at what I saw. You had corn on display which would be a credit to the corn state of Iowa. The grasses, roots and grains shown were unequalled."

"But you cannot cultivate and you cannot market without good roads. It is not only the farmer who needs these roads but your other developing industries. I presume that the Mesaba is considered the greatest range in the country but recent discoveries and continued exploration work will in time show that the Cuyuna iron range is the greatest treasury on earth, rivaling closely the Mesaba."

"I have worked seven or eight years in the development of these ore bodies. Every year the trend of the ore widens and within the next two years it will be brought right north and into the very confines of your own city of Brainerd, extending also in a westerly direction."

"You who have the lands should give some one the chance to develop them, retaining of course your fee interest. The royalty system is about the best in use. The interests of the iron range will soon overshadow all others in this county. It means employment for thousands of people."

"Every man who has a stick of tamarack, hard wood or pine on his place will find a chance to market it. He will get more for his inferior wood at the mines than the highest prices ever received by him when selling his best timber years ago. Everything he raises on his farm will meet with a ready cash sale. Give him good roads. It will solve the whole problem."

Mr. Crosby's address was given great applause and was listened to with undiminished attention.

Carl Zapffe spoke on "Brainerd as a Convention City" and described the benefits accruing to a city which secured many of these conventions. It was one of the most valuable forms of advertising and he had observed in the western cities he recently visited that bureaus were maintained whose sole business was to get these gatherings. Brainerd needed more conventions and every citizen could do his share in advancing the interests of Brainerd by joining with the Commercial club to secure these gatherings.

Charles A. Russell spoke on the value of advertising and mentioned his first work at the Lord & Thomas agency while working his way through Chicago university. As sec-

retary of the Superior Commercial club he did much to push and give publicity to the civic advantages of that metropolis.

Toastmaster Wise read regrets from various people who were unable to attend the banquet and these included C. J. McNair, of Cloquet, who was to deliver an address and the Hon. R. C. Dunn, of Princeton, C. M. King, of Deer River and John S. Pardee, of Duluth.

In a telegram W. H. Gemmell said: "Regret my absence from the city prevents me from being present at the club's banquet tonight. I trust it will be a great success and largely attended; also that such subjects as good roads, Brainerd as a convention city, and the necessity for domestic science and manual training in Brainerd schools will be freely discussed and a healthy public sentiment created in their favor."

Among those from Deerwood who attended the banquet were H. J. Hage, John Oberg, Charles Oberg, Robert Archibald C. H. Adams, Oscar Carlson and A. H. Carlisle. From Crosby were George H. Crosby and M. F. Crosby. From Crow Wing was L. Bailey.

Before the banquet all had the pleasure of attending a first performance at the Brainerd opera house on the invitation of the new manager, Tom Brown. The latest moving pictures were shown and the entertainment proved of much interest to members of the club and their guests.

The menu discussed at the Ransford was in keeping with the reputation established by this hotel and was faultlessly served and embraced the following courses:

Oyster Stew a la Commercial Club  
Queen Olives Sliced Tomatoes  
Radishes  
Lake Superior White Fish,

### COULD EAT LIKE HORSE

Capt. Hurley Said Recruit For Army  
Service Could Eat That Way and  
Not Use Back Teeth

Capt. Hurley is doing what he can at different times to induce roving men who sometimes occupy the city jail on vagrancy and other minor charges to give up drinking and to join the United States army. The other day Capt. Hurley found a fine specimen of manhood and after he was dismissed from the lockup the captain induced him to try the army headquarters and see if he could not be enlisted. But he failed on the test for sound teeth. He had two bad ones in the back of his jaw.

"Ah faith," said Mr. Hurley. "That defect isn't much. He can use his front teeth and eat like a horse." But the matter of bad teeth was a vital defect and the man could not be enlisted.

The army service is very particular that every recruit should have sound teeth. It seems unusual, in a way too, because it was only recently when the army shifted from hardtack to the new army bread.

## She's A Winner

The tailored-to-order girl always is. She has that distinction—that individuality—that fashionable appearance that only man-tailored-to-order clothes can give.

YOU too, can be a tailor-dressed girl. YOU too, can have the satisfaction of being STYLISHLY and PERFECTLY gowned for all occasions. And you needn't pay one cent more than you can well afford.

For by means of our exclusive arrangement with the famous American Ladies Tailoring Company of Chicago you now have the opportunity of obtaining the same identical styles—the very creations themselves, right here in your own town that all fashionable women in the big cities are now wearing.

Look at these prices. They are marvels of what scientific tailoring organization can do:—

Suits: \$13.50 and up	Dresses: \$12 and up
Coats: \$10.00 and up	Skirts: \$ 5 and up

And, mind you, all are made-to-order—TO FIT YOUR INDIVIDUAL FIGURE. So satisfaction is absolutely guaranteed.

Come—see this magnificent line of Ladies' Fall and Winter fashions now on exhibit at our store. No obligations to buy. We merely want to show you what comfort and pleasure a little money can now purchase here.

### Olson-Malvick

Albert Olson, of Deerwood and Miss Inga Malvick, of Aitkin, were married Wednesday evening at the parsonage of Rev. M. L. Hostager, pastor of the Seventh Street Norwegian Lutheran church. The bride was attended by a sister of the groom, Miss Sina Olson. The best man was a Brainerd friend of the groom, Arthur Peterson.

The happy couple left today for Detroit, Minn., where they will visit an uncle of the bride. Mr. Olson is a clerk of the H. J. Hage department store in Deerwood and is an efficient and well liked young man. The bride for several years has been a clerk in a store at Aitkin. They will make their home in Deerwood and the best wishes for their continued happiness and increasing prosperity accompany them to their place of abode.

### POSTAL SAVINGS BANK

Deposits Show an Increase Since Last  
Pay Day in Shops and Are Now  
About \$2,000

Starting with a few depositors on its opening day about a month ago the deposits in the postal savings bank of this city were largely increased last pay day and last Saturday when the total deposits leaped to the sum of about \$2,000 with in the neighborhood of 50 depositors.

### \$25,000 in Rebates

It is estimated that the Pullman company will have to pay \$25,000 in rebates to the public on over payments for sleeping car service, because of the order of the Illinois courts in the Pullman cases. The interstate commerce commission ordered a reduction in March, 1910, and the company appealed. That wouldn't be a marker on the rebates people could get if they got back the money for poorer beers than golden grain belt beers, the best by test. They make friends everywhere. Sixty men are employed by the company. The next pay day will be on October 21 when about \$3,000 will be paid out through the First National bank of Brainerd.

Capt. Martin, of the Mesaba range, spent a part of last week with Supt. I. S. Roe and was very successful in a chicken hunt near the mine.

The contract has been closed for the erection of a residence for the mining captain.

Card of Thanks

We wish to extend our thanks to the neighbors and friends, M. & I. trainment, N. P. doctors, and the nurse, Miss Heath, who were so kind to my late husband during his last illness and who sympathized with us during our bereavement.

Mrs. Annie McCue and Family.

Illustration of a woman in a long dress and hat, standing next to a man in a suit. Text: "She's A Winner".

The tailored-to-order girl always is. She has that distinction—that individuality—that fashionable appearance that only man-tailored-to-order clothes can give.

You too, can be a tailor-dressed girl. You too, can have the satisfaction of being STYLISHLY and PERFECTLY gowned for all occasions. And you needn't pay one cent more than you can well afford.

For by means of our exclusive arrangement with the famous American Ladies Tailoring Company of Chicago you now have the opportunity of obtaining the same identical styles—the very creations themselves, right here in your own town that all fashionable women in the big cities are now wearing.

Look at these prices. They are marvels of what scientific tailoring organization can do:—

Suits: \$13.50 and up      Dresses: \$12 and up  
Coats: \$10.00 and up      Skirts: \$ 5 and up

And, mind you, all are made-to-order—TO FIT YOUR INDIVIDUAL FIGURE. So satisfaction is absolutely guaranteed.

Come—see this magnificent line of Ladies' Fall and Winter fashions now on exhibit at our store. No obligations to buy. We merely want to show you what comfort and pleasure a little money can now purchase here.

Olson-Malvick  
Albert Olson, of Deerwood and Miss Inga Malvick, of Aitkin, were married Wednesday evening at the parsonage of Rev. M. L. Hostager, pastor of the Seventh Street Norwegian Lutheran church. The bride was attended by a sister of the groom, Miss Sina Olson. The best man was a Brainerd friend of the groom, Arthur Peterson.

The happy couple left today for Detroit, Minn., where they will visit an uncle of the bride. Mr. Olson is a clerk of the H. J. Hage department store in Deerwood and is an efficient and well liked young man. The bride for several years has been a clerk in a store at Aitkin. They will make their home in Deerwood and the best wishes for their continued happiness and increasing prosperity accompany them to their place of abode.

Deposits Show an Increase Since Last Pay Day in Shops and Are Now About \$2,000

Starting with a few depositors on its opening day about a month ago the deposits in the postal savings bank of this city were largely increased last pay day and last Saturday when the total deposits leaped to the sum of about \$2,000 with in the neighborhood of 50 depositors.

\$25,000 In Rebates  
It is estimated that the Pullman company will have to pay \$25,000 in rebates to the public on over payments for sleeping car service, because of the order of the Illinois courts in the Pullman cases. The interstate commerce commission ordered a reduction in March, 1910, and the company appealed. That wouldn't be a marker on the rebates people could get if they got back the money for poorer beers than golden grain belt beers, the best by test. They make friends everywhere. ### ENTHUSIASTIC AITKIN MEETING

Aitkin Commercial Club Entertained  
Delegates at Dinner After They  
Visited County Fair

The good roads conference at Aitkin Friday was the largest in point of attendance of the number held on the call of the good roads committee of the Northern Minnesota Development association. The Aitkin county fair was in progress and this also served to attract people from surrounding counties.

The Moorhead-Duluth road was discussed and the route from Brainerd to Duluth was definitely fixed. The subject of a road from International Falls through Grand Rapids and Mora to St. Paul was broached for the first time but on account of the inability of Mora delegates to get to Aitkin, the discussion was deferred until next Thursday when a meeting will be held at Cambridge to consider that subject. The road from International

We are so positive that we can relieve constipation, no matter how chronic it may be, that we offer to furnish the medicine free of all cost if we fail.

We think that it is worse than useless to attempt to cure constipation with cathartic drugs. Cathartics may do much harm. They may cause a reaction, irritate and weaken the bowels, and make constipation more chronic. Constipation is often accompanied and may be caused by weakness of the nerves and muscles of the large intestine or colon. To expect a cure you must therefore tone up and strengthen those parts and restore them to healthier activity.

The discovery of the active principle of our remedy involved the labor of skilful research chemists. This remedy produces results such as are expected from the best of the best-known intestinal tonics, and it is particularly prompt in its results.

We want you to try Rexall Remedies on our guarantee. They are exceedingly pleasant to take and are ideal for children. They apparently act directly on the nerves and muscles of the bowels, having, it would seem, a neutral action on other organs or glands. They do not purge or cause inconvenience. If they do not positively cure chronic or habitual constipation and thus relieve the myriads of associate or dependent chronic ailments, your money will be refunded. Try Rexall Remedies at our risk. Three sizes of packages, 10c, 25c, and 50c. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store.

Falls to St. Paul by way of the Itasca state park was also talked over.

Duluth was represented at the meeting by E. K. Coe, county road engineer; G. G. Hartley, J. W. Marvin of the Rock Island department, and J. S. Pardee, secretary of the good roads committee of the Development association. Nearly all the counties interested in the different roads were represented and between 100 and 150 people attended the meetings. Senator Elwell, author of the good roads bill was present.

The county boards and the people of Aitkin and Carlton counties had agreed on the route from Brainerd to Duluth and it was approved. The main road will run from Brainerd following the line of the Northern Pacific railroad, via Deerwood. Another road will run west from Moose Lake to Brainerd connecting with the Moorhead to Duluth road at Brainerd and the Duluth to St. Paul road at Moose Lake. George H. Crosby and others made a plea to have the main line of the road run through the Cuyuna range but the road along the Northern Pacific railroad was approved.

The proposed new road from International Falls through Koochiching, Itasca, Aitkin, Kanabec and Isanti counties to Anoka and then to the Twin Cities met with the approval of the delegates. It runs in part through a country which has not yet been scratched, that in the vicinity of Sandy Lake, which has been regarded as inaccessible. Hill City, which is also in that territory is difficult of access, and besides being of value to settlers, already in the territory which will be traversed by the road, a vast new region will be opened.

At the meeting to be held at Cambridge next Thursday, the matter of adopting the road as one of the trunk lines planned by the Development association will be considered. The route from International Falls to Grand Rapids has already been fixed. From Mora south, there is no question as to the availability of a route. There is some question as to the route in the stretch from Grand Rapids to Mora.

The project of a road from International Falls, via Bemidji, is making good progress. The road has been laid out from International Falls to the park line. A road, not designated under the Elwell law and require-

At the fair Friday afternoon G. G. Hartley gave a speech that was regarded by the Duluth visitors as a masterpiece. It was received with manifestations of great approval by the assembled farmers. George W. Crosby also spoke, making the prediction that within a few years the Cuyuna range will have 20,000 people and will be an important market center.

Friday evening, the Aitkin Commercial club entertained the delegates at a dinner. E. K. Coe gave a very interesting road talk, and other visitors spoke on the subject of development.

The petitions for the road from Duluth to St. Vincent are being prepared as rapidly as possible and will soon be submitted to the state highway commission for approval.
